Re: Former Seaboard Chemical Corporation and Former City of High Point Riverdale Landfill
Remedial Action Settlement Agreement - Extension of Time Required to Submit Declarations of
Perpetual Land Use Restrictions and Survey Plats

Dear Mr. Dawson:

You have requested an extension of the deadline agreed upon in the Remedial Action Settlement Agreement (Section I. of the Statement of Work). Specifically, you have asked for a 90-day extension to submit, for the Division of Waste Management's approval, separate Declarations of Perpetual Land Use Restrictions (DPLURs) and survey plats for the former Seaboard Chemical Corporation and Riverdale Landfill Site and the adjacent Crutchfield property located north and east of the Site and the Deep River.

Pursuant to Section B. of the Statement of Work, the Division will treat your letter dated March 19, 2009, as a Technical Memorandum, and we hereby approve your request for a 90-day extension. The new deadline for submittal of the required DPLURs and survey plats is June 29, 2009. Please keep the Division apprised of your progress in completing this task, and continue with the implementation of all other tasks as required by the Statement of Work.

If you have questions or comments, please contact me by telephone at 919-508-8545 or by e-mail at vance.jackson@ncmail.net.

Sincerely,

Vance Jackson, PG
Unit Supervisor
Division of Waste Management
